

REMACO

XXL Series...

# Motorized Screen

Remaco XXL motorized projection screen is the "big brother" of our popular PRO Series motorized screen. With all the great features known from all Remaco screens - durable, ease of operation and installation. The greatest feature is, in the case of motor breakdown (which seldom happen), the motor can be replaced without taking down the screen at all! Made of high quality materials, Remaco XXL motorized projection screen has superior image reproduction. The XXL Series is ideal for theatres, auditoriums, halls, etc. Available in sizes from 4m (width) to 6.5m (width).

- ✓ Ease of installation
- ✓ Universal mounting kit for all types of mounting
- ✓ Adjustable setting for desired up/down position
- ✓ Adjustable screen position horizontally
- ✓ Motor can be replaced without taking down the screen

Mechanical  
Wall Switch
